Discussion

1. Review the information presented at the Hearing and discuss. Committee was generally happy with the turn out generally, and we think it went well. A lot of information shared out to residents and gathered from them as opinions.
2. Preliminary look at the survey results. Committee walked through the results using a screen, knowing there are 5 more to enter. Survey had a pretty good response rate with 107 responses, over 10% of adult residents. Pretty balanced responses in some questions, percentage supporting current set up or wanting change. Most blanks in the question about experiences with the department, which is not surprising as so many residents don't have regular interactions. Very unfortunate that so few of responses from people under 50 yrs of age.
3. Next steps in the project schedule. 6:52 pm and did not have time for this.
4. Next meeting time - June 15th, again 6 pm.
5. Talked about next agenda items.
